

## States and Municipalities with Laws Regulating Use of Electronic Cigarettes

*As of July 1, 2015*

The following list includes states and municipalities with **laws currently in effect** that regulate where use of electronic cigarettes (e-cigarettes) is prohibited. E-cigarettes are battery-powered devices that are designed to mimic cigarettes by vaporizing a nicotine-laced liquid that is inhaled by the user. The use of e-cigarettes in workplaces and public places is a significant public health concern, not only because of their unregulated constituents and the potential health impact of the vapor on users and bystanders, but also because e-cigarette use causes public confusion as to where smoking is allowed, resulting in compliance problems with smokefree laws.

Most local and state smokefree laws were enacted before e-cigarettes were on the market, so while such laws do not explicitly mention e-cigarettes, it should not be assumed that their use is permitted. Existing smokefree laws are often interpreted to prohibit e-cigarette use in their smokefree provisions.

NOTE: In the 100% Smokefree Venues column, the following abbreviations are used: W=non-hospitality workplaces; R=restaurants; B=bars; G=gambling facilities.

For more information, please visit [ANR's e-cigarettes page](#).

Please note, this document shows the number of places, not the number of laws. Some places have multiple laws. Please visit our [lists page](#) to see information by *law* in chart format.
