

Integrating Prevention

“WITHOUT GETTING CAUGHT”

Integration:

The process of attaining close and seamless coordination between several departments, groups, organizations, systems, etc.

Who determines what the definition of integration is?

Prevention:

Typically consists of methods or activities that seek to reduce or deter specific or predictable problems, protect the current state of well-being, or promote desired outcomes or behaviors.

Who determines what the definition of prevention is?

**Are these definitions
working for us?**

**What is the cost of staying
with the status quo?**

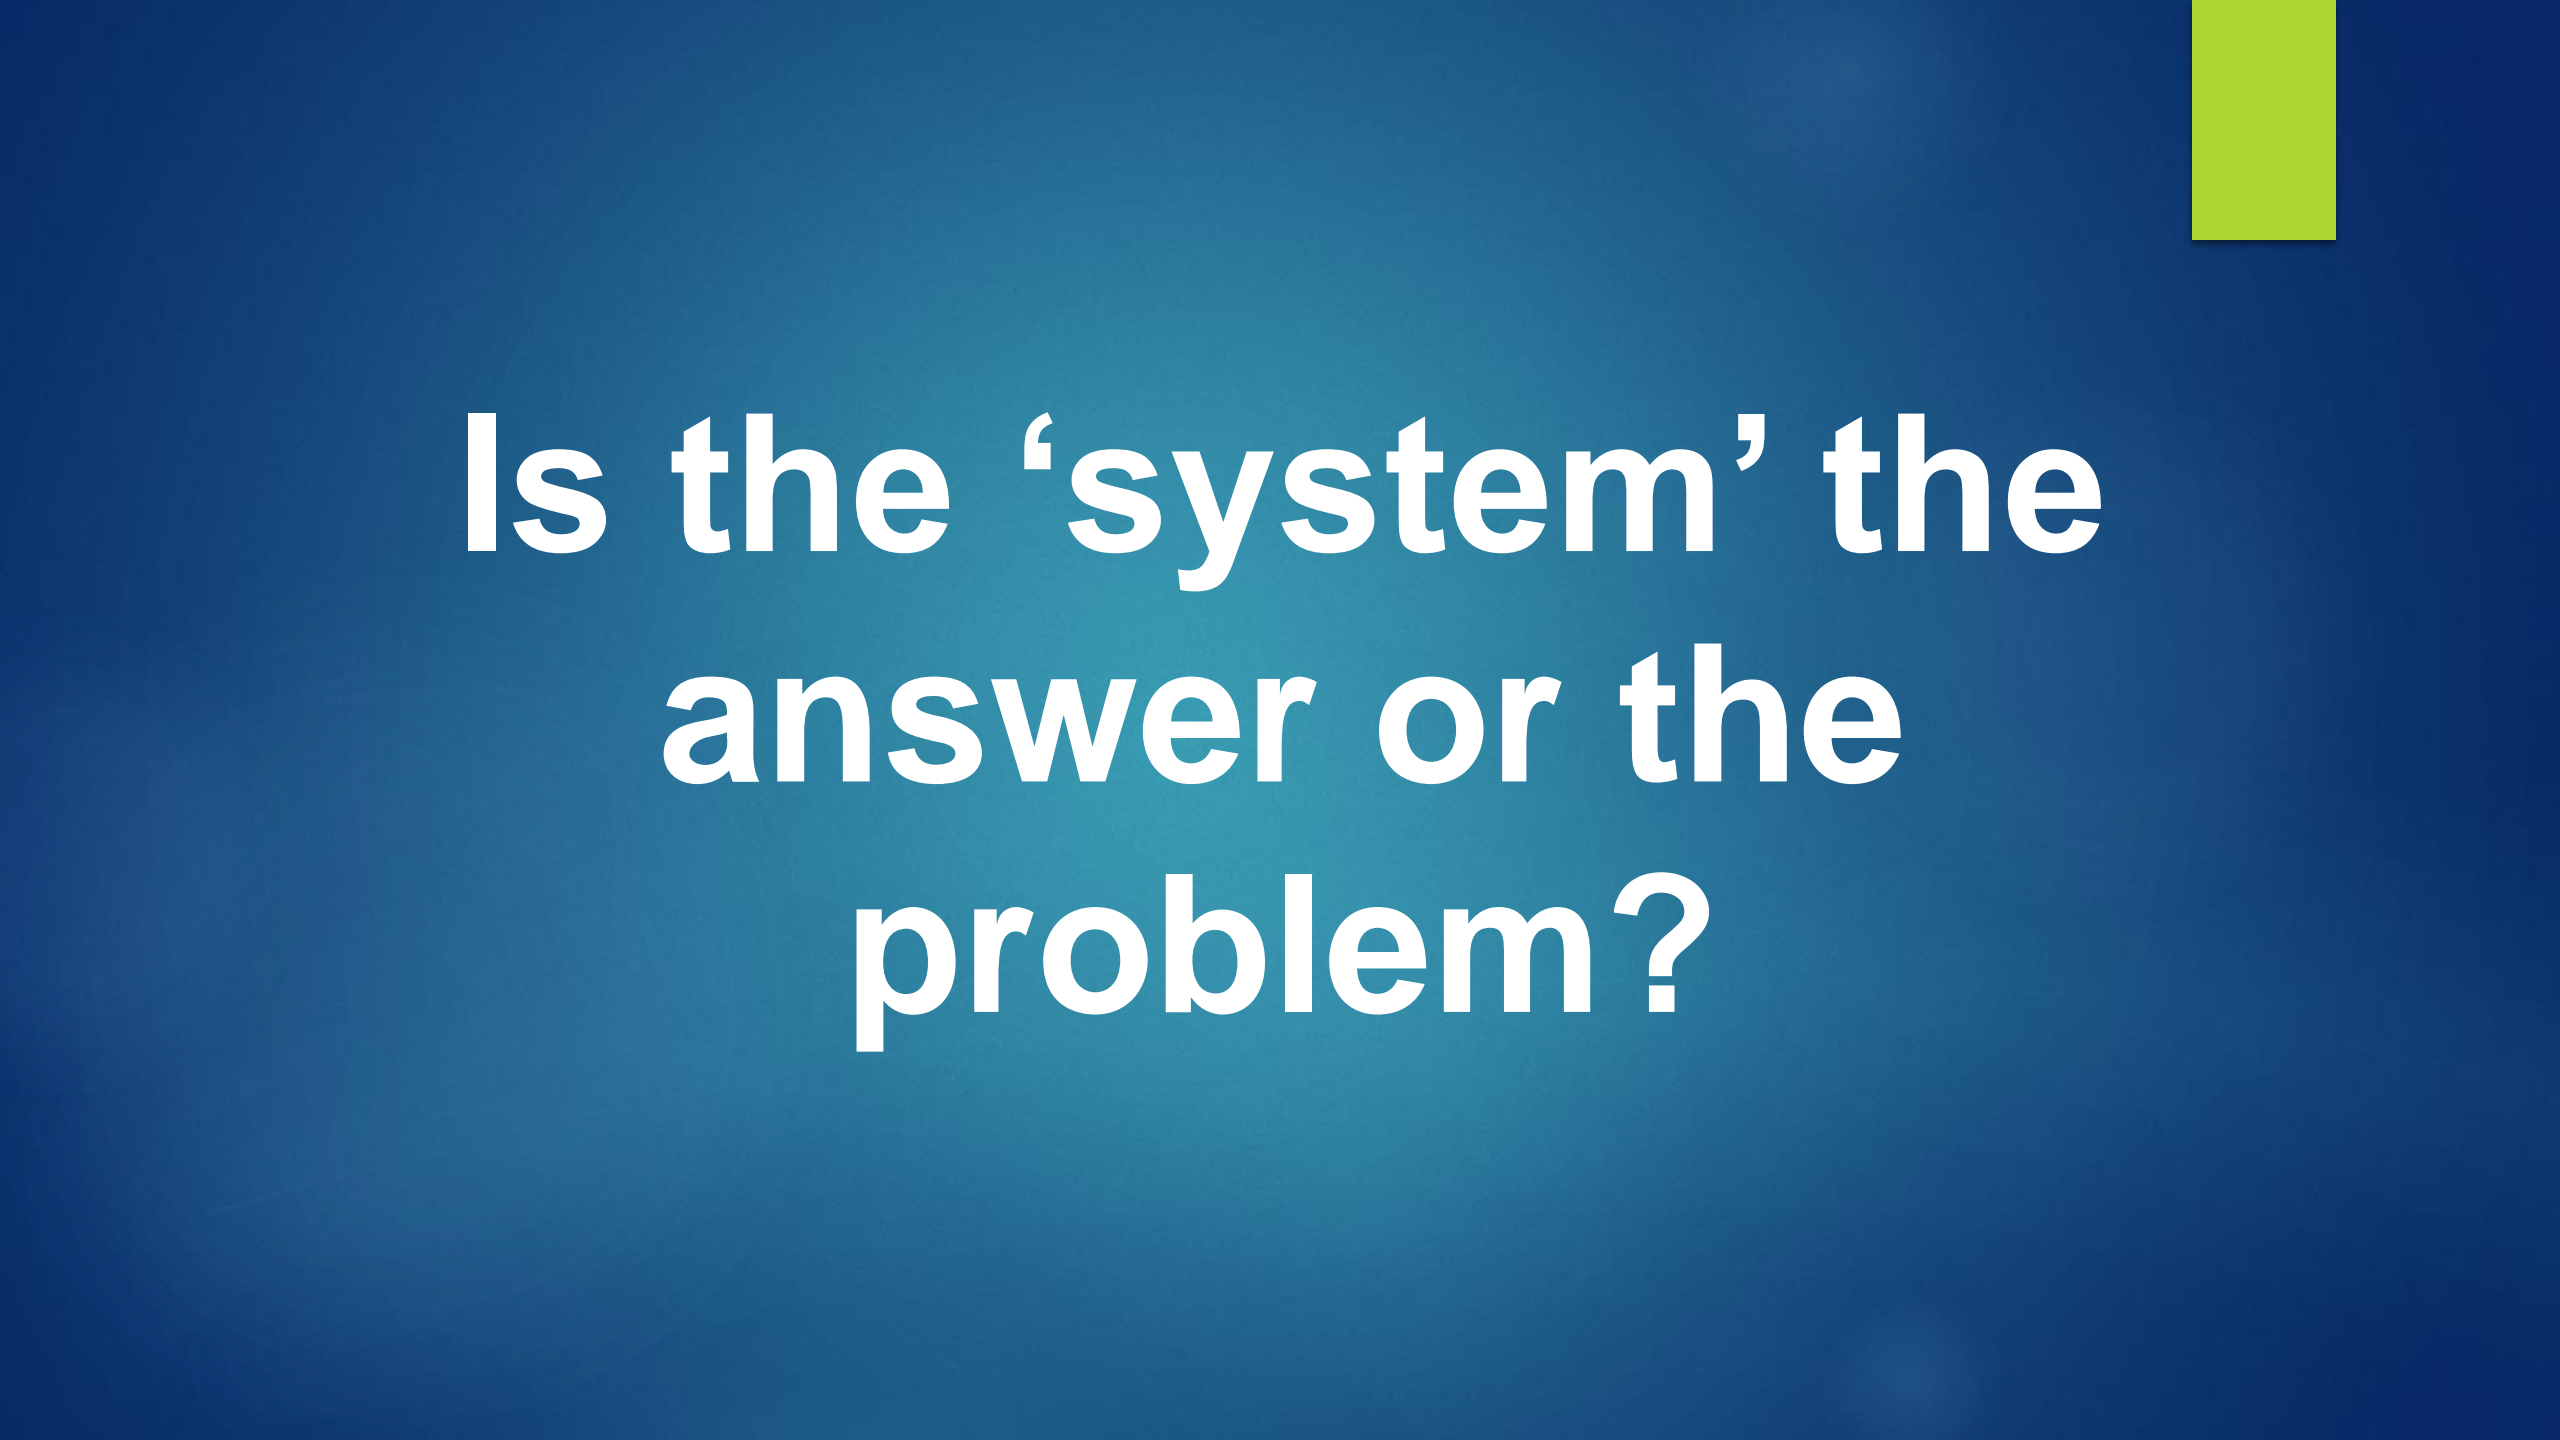

The current cost of psychological and behavioral problems of youth is estimated to be approximately \$524 billion every year.

**Exactly how much is
\$524 billion?**

**It you spent \$100,000.00 every
hour a day it would take you just
over 598 years to spend it all.**

**Is the 'system' the
answer or the
problem?**

**Do we spend too much
time ‘preventing’ when
maybe what we really
need is ‘promotion’?**

Prevention doesn't have a silver bullet ...

Promotion and prevention is silver buckshot!

**How to “win friends and
influence people”
without them knowing
the real motive?**

Power of attachment
