### Chris Sullivan & Taylor's Message

Chris was drafted by the New England Patriots in 1996. He earned a Super Bowl XXXVI ring in 2001 and should have been on top of the world, but while he was battling other teams on the field, he was battling his own demons inside. His addiction to drugs and alcohol took over his life and largely led him to retire from the NFL in 2002. Today, Chris shares his unforgettable story about the dangers of alcohol and drugs with young people across the country.

After a night of binge drinking and poor choices at a series of underage drinking parties, Kathi Sullivan's 17 yr old daughter Taylor found herself alone in the woods and drowned in only two feet of water. They found her 3 days later. Two months later Kathi started sharing Taylor's story with students and parents in hopes that her message would enlighten others on the dangers of underage drinking and poor choices. Passionate about reaching students' hearts and minds, she simply shares with students what happened that night, how it could have been prevented and how Taylor's death has affected her family, Taylor's friends and the community.
