Rhode Island's Mental Health Action Day

Rhode Island is once again observing Mental Health Action Day. On this day, we will encourage and empower people to take the next step for #MentalHealthAction.

Governor McKee will be joined by other elected leaders and health and human services providers to shift awareness to action on mental health.

Join us on May 20th at 10am to hear from experts in childhood mental health and wellness, substance use and overdose prevention, and Veteran services.
